

COMPACT PACKAGE BRIMMING WITH STYLE

Experience the perfect blend of style and thrill with the 2024 Honda CB®300R. This lightweight and responsive machine is designed to excel in real-world riding conditions, offering easy-to-use power thanks to its compact single-cylinder engine. With a chassis that prioritizes precise handling and sporting comfort, the CB300R delivers an exceptional riding experience. In addition, last year's updates brought even more convenience with a gear position indicator on the LED instrument panel. Choose the CB300R for its economic value, premium build quality, and standard anti-lock brakes. Unleash your passion for riding with this impressive and stylish machine.

FEATURES & BENEFITS

COMPACT ENGINE

The CB300R's compact single-cylinder engine is a jewel with a free-revving, responsive nature. The engine also provides plenty of power both around town and out on the highway.

LIGHT, STRONG STEEL CHASSIS

The CB300R strives for a perfect combination of handling, power, and athletic comfort. Great handling starts with a superior chassis, which is why the CB300R uses a special frame construction designed to be both light and strong.

CAFÉ STYLE

Taking its styling cues from our CB1000R, the CB300R offers a fresh, contemporary take on the modern streetbike. Plus, the lightweight and upright seating make it a blast to ride.

STANDARD ABS

Our Anti-Lock Braking System (standard on the 2024 CB300R) can be a big help in making controlled stops in less-than-ideal conditions, like on wet pavement or other compromised surfaces.
