

# OWN THE ROADS WITH EASE

Now \$700 less for 2026, the CB650R brings adrenaline with attitude and ease to match. We didn't change the bike to cut costs; we lowered the price so you can enjoy it with more cash in your pocket. The only new addition is a Matte Black Metallic colorway. You still get the CBR650R's high-revving character, a responsive exposed chassis, and Honda E-Clutch for smooth starts and seamless shifts. Less bodywork. Same bite. Pick a street and let it eat..

### FEATURES & BENEFITS

#### 649cc DOHC INLINE-FOUR

Honda is known for its precision-engineered four-cylinder engines, and this one offers smooth and quick revs, abundant low-to-mid-range torque, and relentless power across all rpms.

#### Honda E-CLUTCH

Honda's E-Clutch is the best of both worlds. It lets you shift with your left foot without needing the handlebar-mounted clutch — unless you want to — and it also acts as a quick shifter, enabling clutchless, full-throttle gear changes up and down for riders who crave performance.

#### UPRIGHT HANDLEBAR

Your connection to the machine begins with the handlebars. We've meticulously tuned its angles to optimize maneuverability, providing more nimble handling and increased control in tight turns.

#### MODERN CAFÉ STYLING

Combining sportbike agility with naked streetfighter looks makes for a bold and daring appearance.
